Power Tools Aren't Just For Professionals Enhance your DIY skills today!

In this 3 hour course, we will guide you through the process of using power tools safely and undertake a woodworking project to create a pine wood kitchen organizer. Use it to store fruits, sauce bottles or anything that you want. You will take home the kitchen organizer but most importantly, you will acquire new skills and confidence in your personal DIY capabilities.

You will learn about...

Safe and proper handling of

Mitre Saw, jig saw, impact driver and sanding machine

Teamwork

Collaborating with each other as a team on a woodworking project

Empowerment

Achieve satisfaction and confidence in going beyond your comfort zone!

REGISTER TODAY!

Pre-booking is required with a minimum participants of 6 per session. Maximum participants per session will be capped at 10. For larger groups, an additional facilitator will be engaged.

Timeslot:

9.30am - 12.30pm
